MUNICIPAL REGULATIONS.

CITY CLERK'S OFFICE, }
CITY OF CONCORD, Feb. 1, 1879. }

To Persons having claims against the City :

All persons furnishing materials or service for the city, or aid to city paupers, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge ; and unless this is done, no action can be had upon the bill by the committee on accounts, and no order will given for its payment.

When bills are certified to as above, and left with the city clerk before twelve o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Wednesday following.

Meetings of the committee are held on the Thursday next preceding the last Saturday of each month, at two o'clock P. M., which will occur the present year, Feb. 20, March 27, April 24, May 29, June 26, July 24, Aug. 28, Sept. 25, Oct. 23, Nov. 27, Dec. 25, Jan. 29, 1880, Feb. 26.

NOTE. In addition to the above, \$1,716.05 was expended by the former Superintendent in Union Highway District, and \$207.62 in the several outlying districts, prior to May 1, 1878 (making \$1,923.67), and which was paid from the appropriation made for Roads and Bridges for the year just closed.

REPORT

OF THE

COMMISSIONER OF HIGHWAYS.

To the City Council of the City of Concord :

I have the honor herewith to submit the first Annual Report of the Highway Department under the revised ordinances. Although this report embraces the entire financial year, one quarter of the time the work was carried on under the district system, and quite a proportion of the entire amount expended has passed through other hands.

A much larger amount of work has been done the past year, on many of the highways outside of the Precinct, than in some previous years. It was found that the public would require that the highway known as the "Shaker road" should be put in substantial repair. The amount of money expended on this road had been small for several years, and much of the road-bed was worn flat ; the ditches were filled, so that the water ran in the road instead of in the ditches ; and the trees and bushes had encroached so that the road was quite narrow. The expenditure this year in what was formerly District No. 3, and including the "Shaker road," and in No. 6, embracing East Concord village, and which were worked together this year, was about \$100 more than the previous year.

The road to Pembroke has been thoroughly repaired. The bridge over the Soucook river on this road, belonging to Concord and Pembroke, has been built anew, being set five feet higher by the raising of the abutment and wing-walls with substantial stone-work, and a heavy fill of three hundred and fifty feet in length made to its approach. The cost of this work to the city was about \$1,000.

The roadway of the "Free bridge" has been renewed with new floor timbers and plank, and concreted. The iron bridge at Fisherville, and also the bridge over the Merrimack known as the "lower bridge," have been concreted.

About 5,730 square yards of concrete sidewalk has been laid, and 2,000 feet of edge-stone set, one half of the cost, say fifteen hundred dollars, being paid by the city. There has been put down on Main street 1,335 square yards of granite paving, including crossings, being about 55,000 blocks, and 1,400 square yards of cobble paving has been laid in the gutters of various streets.

In fine, I have endeavored to put and keep the main avenues of travel in the city in substantial repair, and those less travelled in as good condition as circumstances seemed to allow or require. The entire length of the streets and highways of the city is more than two hundred miles.

The unlooked-for and almost unprecedented freshet in the early part of December, caused extensive damage to three of our principal highways, necessitating the expenditure of a large amount in their repair,—the work of repairing being but just completed at this date.

It will be observed that the original appropriation of \$20,000 for roads and bridges has been quite largely overdrawn. This is accounted for by the damage by the freshet above alluded to, and a considerable amount of unpaid bills of last year, that have been paid from this year's appropriation.

The work of sprinkling the streets has been done in connection with highway work, the past season, and the sums

due on this account will more than cancel the present deficiency.

The following table will exhibit receipts and expenditures :

RECEIPTS.

Cash drawn on city orders,	\$16,985.16
